EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kirsten Grueneberg on March 16, 2007.

The application has been amended as follows:

Upon updating the searches, copending application 10505767 came to the attention of the examiner. Although the present claims are provisionally rejected on the grounds of non-statutory obviousness-type double patenting by the copending claims of 10505767, given that the present application is the earlier filed application and given that there are no other rejections pending against the present claims and thus, the non-statutory double patenting rejection would be the only rejection of record applied against the present claims, the present claims are properly passed to issue with the understanding that the applicable non-statutory double patenting rejections will be
